

Skilled Attendance and Facility Births Converge, Leaving Antenatal Care Behind.

Anaemia Prevalence: Progress Reversed Since 2011

Skilled Attendance and Facility Births Track Almost Perfectly

Skilled attendance and facility births move almost identically ($r \approx 1.0$, $n=4$ year-pairs). Antenatal care correlates directionally ($r \approx 0.95$) but improves 6–7x more slowly."

Facility births, 2022 (%)

88.10
